

**GoForGood
Summer Edition:
Safety
Scavenger Hunt!**

Directions: Follow the Safety Scavenger Hunt trail below. When you get to a stop, read the clue and think about what the object/thing might be. When you figured it out, walk or bike to object and take a selfie with the object/thing behind you! If you come across a stop that is not accessible to you or you are unsure of what it is, skip to the next! Don't forget to post your pictures on our GoForGood app or on social media tagging us @transoptions to see if you got the riddles correct!

While filling out your Scavenger Hunt Check List, please remember to follow the rules of the road and practice social distancing! This includes staying 6ft apart from people not in your household.

Start here! Don't forget to take pictures of each object when you figure out the clue! So let's get walking and biking toward our first stop!

Stop 1: We arrived at our first stop! Take a picture of the object that helps you across the block! It is painted on the road that helps us walk through, but always remember to look left then right too!

Stop 2: The next object we seek helps with the flow of traffic. Cars and bikes come to a complete stop before continuing passing. One more hint comes within this clue, check the shape of this riddle and it might come to you!

Next Page!

Stop 4: The next thing we capture you can show off your creativity. Ride or walk to a trail or park and take a picture of the scenery!

Stop 3: When we ride in the street we remember our safety tips, we look out for road debris like rocks, leaves, and branches. Take a picture of road hazards that might be unsafe for us to ride over!

Stop 5: The next object includes speed, do you see where this is going? Take a picture of the sign that tells people how fast they should be going!

Stop 6: During our ride take in some nature, fill in the blank and take this as your next picture!
"April showers, bring May _____"

Stop 7: The next object might be a little bit further. It flashes red, yellow, or green to let cars and bikes through the intersection!

Stop 8: We walk and bike to help save our planet, take a picture of the object that produces the most greenhouse gases!

Stop 10: The last stop we have might not include travel, download our GoForGood app to post and log travel!

Stop 9: Before we complete our safety scavenger hunt, if you are walking or biking take a selfie of your helmet or shoes on!
